# ABOUT

## Green gas Mobility Summit 2026

**Green Gas Mobility Summit** is the **leading meeting point for the sustainable transport and renewable gases ecosystem in Spain and Portugal.**

Over two days, **industry leaders, public administrations, and top-level experts** will discuss real, already available solutions to advance transport decarbonization, analyzing the current state and evolution of established and emerging technologies **such as natural gas, biomethane (bioCNG-bioLNG), hydrogen and its derivatives**, as well as their various applications.

An **in-person event** that fosters **knowledge exchange** and networking among key sector stakeholders, **featuring a large indoor and outdoor exhibition** area where attendees can experience vehicles, infrastructure, and innovative solutions firsthand.

In-person event with a highly specialized audience:

- **Public administrations**
- **Energy companies**
- **Transport and logistics operators**
- **Manufacturers, engineering firms, and technology providers**

### Strategic impact and visibility:

**+900**

attendees

**+100**

top-level national  
and international  
speakers

**+30**

# Speakers

Green  
gas Mobility  
summit

**Ana Cano Caro**

Gasnam

President

**Joan Groizard**

Ministry for the Ecological  
Transition and Demographic  
Challenge

Secretary of State for Energy

**Benito Núñez**

Ministry of Transport and  
Sustainable Mobility

Secretary General for Air and  
Maritime Transport

**Gustavo Santana**

Spanish Ports

President

**Arturo Gonzalo Aizpiri**

Enagás

CEO

**José Luis Gil**

Naturgy

General Director of Renewable Gases

**Eduardo Azcona Soria**

PreZero España

Southeast Public Business  
Director

**Alice Acuña**

Moeve

Executive Vice President Trading

**Víctor Jimenez**

International Maritime  
Organization

Council President

**Enrique Ujaldón Benítez**

Región de Murcia

Secretary General at the Ministry  
of Environment, Universities,  
Research, and the Mar  
Menor

**Stuart Carpenter**

Carnival Corporation & plc

Senior Director, LNG  
Implementation

**Adolfo Utor**

Baleària

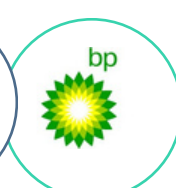

President

**Erwan Bruneau**

Air Products

Solutions & Commercialisation  
Manager Europe Hydrogen for  
Mobility chez

**María Fernández**

BP

Gas & Power Southern  
Europe Senior Manager

**Fabrizio Toscano**

IVECO BUS

Business Director

**Jinan Zheng**

REFIRE

Europe Director

**María Junco**

Enagás GTS

General Director

**José Luis Cabo**

Ministerio de Transición  
Ecológica y Reto Demográfico

Deputy Director General for  
Hydrocarbons and New Fuels

**Diogo Almeida**

Galp

Head of Business Development,  
H2 & Renewable Fuels

**Antón Martínez**

## Renewable Gases: Production and Market

## Summit Auditorium

**9:00** Registration Opening**10:30** Welcome and Opening of the Transport Decarbonization Observatory*Gasnam: Ana Cano, President**Ministry for the Ecological Transition and Demographic Challenge: Joan Groizard, Secretary of State for Energy***Presentation of the Observatory for Transport Decarbonisation in the Iberian Peninsula - PwC**

This session will present the Transport Decarbonisation Observatory and its analysis on renewable fuels, prices, and investment projections for 2030 and 2035.

*PwC Spain: Óscar Barrero, Partner responsible for Energy & Utilities***11:15** Opening Session**Europe facing the challenge of sustainable transport: infrastructures to accelerate the transformation of mobility***Enagás: Arturo Gonzalo Aizpiri, CEO**Gasnam: Eugenia Sillero, General Secretary***Green Molecules: Decarbonization, Resilience, and Innovation***Moeve: Alice Acuña, Executive Vice President Trading***Biomethane in Land Transport: Challenges and Uncertainties***Naturgy: José Luis Gil, General Director of Renewable Gases***Biomethane: from strategy to implementation through public-private collaboration***PreZero Spain: Eduardo Azcona, Southeast Public Business Director**Region of Murcia: Enrique Ujaldón Benítez, Secretary General at the Ministry of Environment, Universities, Research, and the Mar Menor**Panel Moderator: Águeda García de Durango, Managing editor Retema***12:30** Energy Markets in Transition: LNG, Bio-LNG and E-fuels

This panel will analyse how geopolitics, regulation, and carbon pricing are transforming LNG, bio-LNG, and e-fuels markets in the energy transition.

*Axpo Group: Antonio Canseco, Head of LNG and Gas Iberia**BP: María Fernández, Gas & Power Southern Europe Senior Manager**Mibgas: Raúl Santamaría, General Director**Moeve: Eric Pelsise, Head of Gas, LNG and Biomethane Trading**Repsol: Carlos Martín, LNG Bunker**Peninsula: Nacho de Miguel, Head of Alternative Fuels & Sustainability**Panel Moderator: María Junco, General Director Enagás GTS***13:15** Networking Break

## Alternative fuels bunkering – Iberian Peninsula Conference

MOEVE Auditorium

### 15:30 Net Zero Framework de la IMO

This session will analyse the future IMO Net Zero Framework and how carbon pricing will redefine investment, competitiveness, and maritime fuels.

**International Maritime Organization:** Víctor Jimenez, Council President

### 15:45 Ports, Shipping Companies and Maritime Administration: From Climate Ambition to Operational Reality

This panel will discuss how to coordinate regulation, infrastructure, and business strategy to advance towards safe and decarbonised maritime transport..

**Balearia:** Adolfo Utor, President  
**International Maritime Organization:** Víctor Jimenez, Council President

**Ministry of Transport and Sustainable Mobility:** Benito Núñez, Secretary General for Air and Maritime Transport

**Spanish Ports:** Gustavo Santana, President  
**Panel Moderator:** José Poblet, Maritime Vice President Gasnam

### 16:30 Enagás' role in the deployment of Bio-LNG for maritime transport

Enagás drives the decarbonization of maritime transport through its Bio-LNG service and slot management, positioning Spain as a benchmark for FuelEU compliance.

**Enagás:** Nerea Chacartegui, Commercial Logistics Director

### 17:00 Port Infrastructure for a Multi-Fuel Transition

This panel will analyse how ports are adapting infrastructure and operations to a safe, efficient, and competitive multi-fuel model.

**Port Authority of Algeciras:** Juan Pablo Pérez, Head of Port Planning Department

**Enagás:** María Jesús Martín, Head of New Molecules Business Development

**Exolum:** Fernando Monasterio, Senior Business Development Manager – H2 & Derivatives

**Panel Moderator:** Pedro García, Director of Port Operations at State Ports

## The Hydrogen Reality: Strategic Roadmaps and Operational Success Stories

Circular Auditorium

### 15:30 Key Hydrogen Production Projects in Spain: Challenges and Opportunities

The CEO of Enagás Renovable presents the major hydrogen production projects in Spain, discussing the sector's operational challenges and opportunities.

**Enagás Renovable:** Antón Martínez, CEO

**Panel Moderator:** José María Santa Bárbara, Managing Director of FHA Aragón Hydrogen Foundation

### 15:50 IBIL presents the First Hydrogen Refuelling Station for Mobility and Industrial processes in the Basque Country

State-of-the-art infrastructure: in this session, IBIL will present its projects for deploying renewable hydrogen in mobility and hard-to-decarbonise industries.

**Ibil:** Eduardo García, General Director

**Panel Moderator:** José María Santa Bárbara, Managing Director of FHA Aragón Hydrogen Foundation

### 16:10 The Reality of Hydrogen Mobility Worldwide: Real Experiences in Europe

This session will analyse hydrogen deployment for buses, trucks, vessels, and aircraft through real infrastructure and scalable solutions.

**Air Products:** Erwan Bruneau, Solutions & Commercialisation Manager Europe Hydrogen for Mobility chez

**Panel Moderator:** Claudio Rodríguez, Technical Services and Technology Director at Enagás

### 16:30 Galp H2 Park in Sines: Strategic Green Hydrogen Hub in Southern Europe

This session will address how Galp's hydrogen project in Sines drives industrial decarbonisation and the European hydrogen economy.

**Galp:** Diogo Almeida, Head of Business Development, H2 & Renewable Fuels

**Panel Moderator:** Javier Robador, General Manager of H2CYL Castile and León Hydrogen Association

### 16:50 Development of hydrogen fuel cell vehicles

This session will analyze technological developments in the field of hydrogen fuel cell vehicles.

**PreZero:** Elisabet González, Innovation Manager

**Refire:** Jinan Zheng, Europe Director

**Volvo:** Carmen Soto, Product Manager

**Panel Moderator:** Santiago Ramas, CEO of HVR Energy

Alternative fuels bunkering  
– Iberian Peninsula Conference

The Hydrogen Reality: Strategic Roadmaps  
and Operational Success Stories

MOEVE Auditorium

Circular Auditorium

17:20

## Hydrogen Infrastructure for Mobility: The Case of the Port of Barcelona

SympH2ony (a joint venture created by Toyota Tsusho Europe and Messer) will build the hydrogen refueling station at the Port of Barcelona. We analyze how this and other international experiences can be replicated and implemented in Spain.

**Toyota Tsusho Europe:** Jason Dennis, Hydrogen Business Development Manager

**Panel Moderator:** Miguel Ángel Castro, Head of Mobility at **Scale Green Energy**

17:45 Green Beers & Networking

Alternative fuels bunkering  
– Iberian Peninsula Conference

Renewable Gases for Descarbonizing  
Road Transport

Circular Auditorium

MOEVE Auditorium

9:00 Registration Opening

9:30 **DG MOVE – European Commission  
FuelEU and ETS (video)**

Regulatory balance of the first experiences of FuelEU and ETS: analysis of costs, port competitiveness, and decarbonization to evaluate adjustments in the European regulatory framework.

**European Commission:** Magda Kopczyńska, General Director for Mobility & Transport

9:45 **Postponement of the NZF and  
Investment Pathways in Marine Fuels**

This panel will analyse how the postponement of the IMO Net Zero framework creates uncertainty in investment. The panel discusses LNG, bio-LNG, and e-LNG, fleets, and short- and medium-term supply.

**Carnival Corporation & plc:** Stuart Carpenter, Senior Director, LNG Implementation

**CLIA in Europe:** José González, PhD, CEng, CMarEng, FRINA, FIMarEST Senior director Sustainability, Europe

10:20 **Well-to-Tank Emission Factors of LNG  
(Fossil), Bio-LNG and e-LNG**

This session offers a comparative overview of GHG intensity to assess global regulatory compliance and fuel viability in maritime decarbonisation.

**Bureau Veritas Group:** Víctor Robin, Decarbonization Project Manager

**Panel Moderator:** Steve Esau, Director at Greenpoint Strategy Limited: COO at **SEA-LNG**

9:00 Registration Opening

9:30 **Institutional Welcome**

**Community of Madrid:** Luis Miguel Torres, Director General for Transport and Mobility

**Gasnam:** Álvaro Arroyo, Vice President Land Transport

9:40 **RED III: How Regulation Shapes the Speed  
of the Renewable Gases Market**

This panel will analyse regulatory impacts: RED III and binding targets, renewable gas and RFNBO certification, national incentives, and barriers to grid access and trading.

**ACT Group:** Ignacio Casamitjana, Biomethane trader

**HAM Group:** Antoni Murugó Solé, Management

**Ministry for the Ecological Transition and Demographic Challenge:** José Luis Cabo, Deputy Director General for Hydrocarbons and New Fuels

**Panel Moderator:** Rafael Cossent, Researcher of Institute for Research in Technology (IIT), Comillas Pontifical University

10:10 **The Future of the Regulatory Framework  
RED IV**

**Grupo HAM:** Ángel Benedí, Director adjunto al CEO

**Nyxam:** Guillaume Quiviger, Managing Partner

10:30 **Biomethane and Territory**

This panel will analyse biomethane as a driver for rural decarbonisation, circular economy, and local development through agricultural waste and public-private collaboration.

**Valderrobres City Council:** Carlos Boné Puyo, Mayor and Senator

**Enagás Renovable:** Antonio Illescas, Business Development and Operating Director of biomethane

**Moeve:** Adrien Souchet, Biomethane Director

**Panel Moderator:** Guillermo Mariscal, Member of Parliament. Third Secretary of the Bureau of the Congress of Deputies

11:00 Networking Break

## Alternative fuels bunkering – Iberian Peninsula Conference

## Renewable Gases for Descarbonizing Road Transport

### Circular Auditorium

### MOEVE Auditorium

#### 11:45 W25 Ammonia and NextDF Technology

In this session, Wärtsilä will present advances in ammonia engines and NextDF technology, reducing methane slip and advancing towards a global net-zero emissions fleet.

**Wärtsilä:** Mikko Väkeväinen, Commercial Manager

#### 11:45 Reduce Risk, Accelerate Change: Market Incentives for Fleet Transition

How to provide economic stability, manage risk, and leverage incentives in the energy transition of fleets.

**STX Group:** Marco Centurioni, Business Development Manager

#### 11:55 Public Procurement for Sustainable Mobility: The Role of Renewable Gases

This panel will discuss how decarbonisation is transforming public transport tenders and financing towards sustainable and profitable models.

##### Regulatory Context

**KPMG:** Jesús Rueda Martínez, Senior Manager, Regulatory, Administrative and Competition Department

##### Manufacturer Perspective

**Iveco:** Fabrizio Toscano, Business Director Iberia

##### Operator Perspective

**Alsa:** Miguel Ángel Alonso Julia, Fleet and Maintenance Director

**Grupo Ruiz:** Albino Pérez, Sustainability, Energy and Innovation Director

##### Public Administration Perspective

**Madrid Regional Transport Consortium:** Francisco Javier Gómez, Strategic Planning and Operations Director

**Getafe Cleaning and Environment Department:** César Rico, Production Director

**Panel Moderator:** Rafael Barbadillo, President Confibus

#### 12:00 Real Compliance Costs Under FuelEU and ETS

This panel will analyse how EU ETS and FuelEU Maritime redefine costs, investments, and competitiveness in the maritime sector's transition towards decarbonisation.

**Directorate General of the Merchant Marine:** Federico Navarro, National Coordinator for Marine Environmental Protection

**Flota Suardiaz:** Fernando Barreras, Energy Director

**Península:** María Ángeles Lopez, Decarbonisation Manager

**Panel Moderator:** Elena Seco, General Director at Asociación de Navieros Españoles (ANAVE)

#### 12:45 Global Bunkering and Newbuilding Market Outlook

This panel will examine the evolution of the marine fuel supply market, the rollout of sustainable bunkering projects, and global trends in new vessel construction designed for alternative and transitional fuels.

**Fearnleys:** Ludovico Pallotti, LNG Shipbroker

**Scale Green Energy:** Álvaro Delicado, Maritime Development Manager

#### 12:45 Major Shippers: Profitability and Decarbonisation in Heavy Transport

This panel will analyse Bio-LNG as a long-distance solution, the role of shippers, TCO, and its real impact on logistics decarbonisation.

**Alimerka:** Pelayo Alonso, Head of Transportation and Fleet Manager

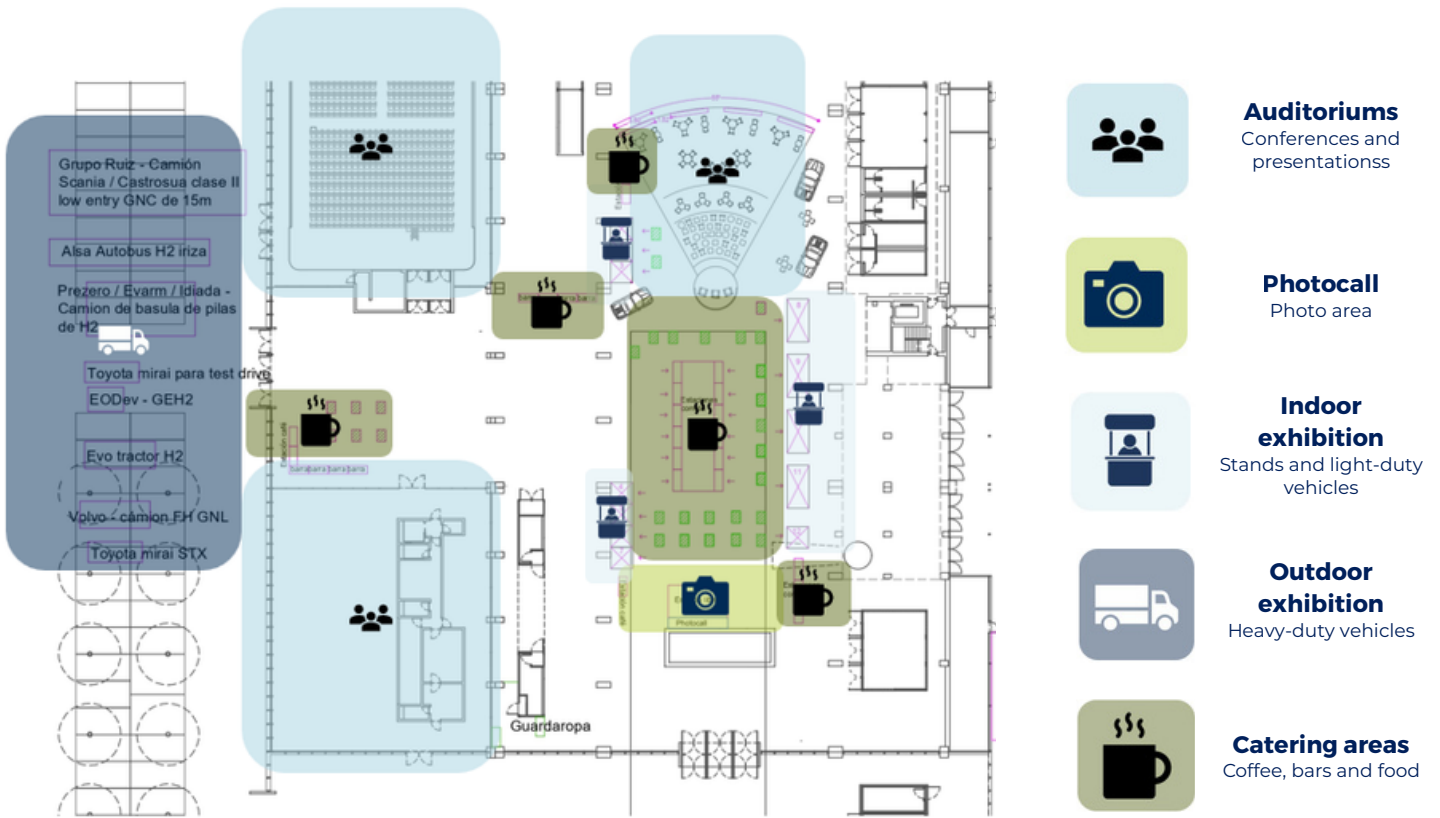

**Eroski:** Gotzon Zulueta, Head of Procurement and Sustainability Transport

**Pascual:** Valentín Andalúz, Logistics and Transport Manager

**Panel Moderator:** Bárbara Ferrer, Sustainable Logistics and Lean & Green Manager AECOC

#### 13:15 Networking- cocktail
